

GULF COUNTY RESTORE ACT PROJECT PRE-PROPOSAL FORM

Staging at George Core Park

Project Name: _____

Submitting Entity: Gulf County Chamber of Commerce

I. Please select one or more eligible activity that the project is classified under:

Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region.

Mitigation of damage to fish, wildlife and natural resources.

Implementation of a federally approved marine, coastal or comprehensive conservation management plan, including fisheries monitoring.

Workforce development and job creation.

Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.

☒ Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.

Coastal flood protection and related infrastructure.

Planning assistance.

☒ Promotion of tourism and seafood in the Gulf Coast region.

II. Please provide an executive summary of the project. Describe/quantify the economic (jobs, infrastructure, tourism, etc.) and environmental benefits (habitat, quality, knowledge, long-term sustainability, etc.).

It is the objective of the Gulf County Chamber of Commerce to promote our area as destination where visitors and local alike can enjoy the many unique and beautiful aspects of our natural landscape while supporting local businesses. It is through marketing special events that we enlarge the attention to our area to increase the local economy.

Music festivals are a recurring popular event. We would like to build a permanent stage to include the specific need of most "A-list" bands. Currently, we spend in excess of \$10,000 per event meeting the musicians staging/av requirements.

III. Please provide a cost summary/budget. Detail any matching/cooperative funds available for use, and any cooperative support from governmental or other agencies.

In order to construct a production stage that is a minimum of forty (40) feet wide and thirty (30) feet deep and five (5) high with a pulled roof and lighting system, the following cost are estimated to be:

Design & Construction	\$150,000
Permits:	\$ 5,000
Electrical:	\$ 37,000
Total:	\$192,000

IV. Please provide a timeline for project completion. Explain the technical and environmental feasibility (including any permitting considerations) of the project.

Ideally we would like to begin as soon as possible in order to complete the project by June 1, 2013. This venue will host two large summer 2013 events where the stage will be a focal point. The scope of the project requires 8 week to complete.

V. Please provide the qualifications of the Submitting Entity, the financial feasibility/sustainability and the economic feasibility and sustainability of the project (probability of success, etc.).

The Gulf County Chamber of Commerce is a 501 (c) (6) that exist exclusively as an economic driver for our local business community. Our organization is in its 77th year of operation and is funded through membership dues, city and county funding, and corporation sponsorships.

The results of the stage construction will insure more events being hosted in George Core Park. As this is a city park, it is maintained through The City of Port St. Joe. Additionally, the increased number of events and attendee will generate increased bed tax local business revenues.

VI. Please provide the anticipated results of the project, and whether it is included in a City of Port St. Joe, City of Wewahitchka or Gulf County Comprehensive and Mitigation Plan?

The results of the improved staging in George Core Park will be reflected in both increased events and number of attendees and ultimately increased revenue for local business. This project aligns with both The City of Port St. Joe and Gulf County plans as events promotions feeds directly into Tourism Marketing.
